Testimonial: American Countryside with Andrew McCrea

We became aware of the American Countryside a number of years ago. Andrew McCrea was the keynote speaker at the Farm/City Breakfast held each year in collaboration with the St. Joseph, Mo. Chamber of Commerce. His speech about his background and his subject matter was intriguing to my family and myself.

Andrew McCrea is extremely passionate about his American Countryside broadcasts. That passion and his countryside themes made a perfect fit for us to be a sponsor. Our truck stop is in the heart of agriculture country and 85%+ our customers are made up of those involved in agriculture activities of some type.

We are pleased to be a sponsor of Andrew's American Countryside program. Local sponsors we believe benefit from bringing his programs to your local market.

Respectively yours,

Bob Wollenman
